6. Inclusions / Exclusions Under Axis Max Life Insurance Products

Life insurance plans generally cover natural death, accidental death, and other events specified in the plan. However, they also include exclusions, such as suicide within the initial policy years, fraud, or non-disclosure of important information. Each plan may have its own set of inclusions and limitations. It is important to read the Policy Document.

Types of Death Not Covered by Life Insurance

- **Suicide in the First Policy Year:** In case of death due to suicide within 12 months from the date of commencement of risk under the policy or from the date of revival of the policy, as applicable, the nominee or beneficiary of the policyholder shall be entitled to at least 80% of the total premiums paid till the date of death or the surrender value available as on the date of death whichever is higher, provided the policy is in force.
- **Fraud, Misrepresentation, or Intentional Self-Harm:** If the policyholder provides false information, hides medical conditions, or engages in intentional self-harm, the claim may be rejected. Therefore, accurate disclosures are essential.
- **Illegal or Criminal Activities:** Deaths occurring while participating in unlawful activities are generally excluded from coverage. Such activities include theft, trespassing, or violent acts.
- **Drug or Alcohol Abuse:** If death results from substance abuse, overdose, or excessive alcohol consumption, insurers may deny the claim as it falls under high-risk behaviour.
- **Hazardous Activities Not Disclosed:** Risky hobbies such as skydiving, racing, or mountaineering may be excluded if not declared during the application.
- **War, Riots, or Terrorism:** Some plans exclude deaths caused during war, riots, civil unrest, or terrorist activities.

Please Note: Exclusions vary by insurer, so reading the policy document carefully is essential.

7. Documents Required for Issuance of Policies
